

Issue number: 25

Issue: When there is no budget how to inspire people to work voluntarily

Convener(s): Miliana Lenak, Macedonia

Participants: Camille Louis, France

Summary of discussion, conclusions and/or recommendations:
When you propose people to work voluntarily, you are not only taking something from them, but you also give them: a chance, an opportunity to create something. The energy invested can not be wasted, for sure something will be born out of it: Friendship, good time, art, and better times with more support.
